

Raised Watertight Hatches

8-Dog Oval

Raised watertight hatches are strong and secure enclosures designed to be easily accessed when needed. They are universally used on all types of commercial vessels from tank barges, hopper barges, box barges and push-boats to OSVs and larger commercial vessels. Their simple design and quality steel construction help them meet long range trouble-free service requirements in the harshest environments.

Features

- Tumble Bolt - Stainless Steel
- Dog Handle - Steel with Zerk
- Bolt 5/8-11 - Stainless Steel
- Nut 5/8-11 - Stainless Steel
- Gasket - Nitrile Rubber
- All of our raised watertight hatches meet ABS (American Bureau of Shipping) requirements for design and materials.

Raised watertight hatches are typically found along the gunnels of a barge as well as on the bow/ stern and on top of cargo compartments or tanks. They are used to access wing tanks, the rake compartment, cargo compartments etc. for venting, filling, and inspecting.

Steel (ASTM A36)
Painted Primer Grey

Custom coaming heights available upon request.
